

ZBS MEDIA, INC.

RADIO/AUDIO

# ZBS MEDIA, INC.

Located on a 45-acre farm on the banks of the Hudson River in upstate New York (near Saratoga Springs), the ZBS sound studio is well-equipped and geared toward radio and specialized audio production. The 8-track facility, in a pleasant setting, offers a chance to work without distraction.

Our staff of professional audio personnel includes electronic engineers experienced in developing custom equipment. We can adapt recording techniques and audio technology to unique needs and special situations. The audio production and engineering personnel at ZBS make up a collective experience of well over 75 years.

ZBS has an extensive sound effects library including the Elektra, Major and Audio Fidelity series. We also have literally hundreds of environments recorded by ZBS in both urban and rural settings throughout the United States, as well as India, Morocco, Spain, France and the British Isles.

Altogether it's a pretty good deal, not to mention the ducks.

## AUDIO PRODUCTION:

audio art/music/new music/sound poetry/film and video soundtrack/multi-media presentation soundtrack/tape for dance/theatre/performance art/field recording. Tape preparation for disc and cassette mastering. You name it.
